Part I: Getting Started, Getting Secure 1
Chapter 1: What's New in Windows Vista 3
Chapter 2: Getting Around 19
Chapter 3: Sharing and Securing with User Accounts 53
Chapter 4: Parental Controls and Family Safety 77
Chapter 5: Help, Support, and Troubleshooting 87
Chapter 6: Troubleshooting Startup Problems 97

Part II: Batten Down the Security Hatches 101
Chapter 7: Blocking Hackers with Windows Firewall 103
Chapter 8: Conquering Malicious Software 119
Chapter 9: Automatic Updates as Security 137
Chapter 10: Troubleshooting Security 145

Part III: Personalizing Windows Vista 149
Chapter 11: Personalizing Your Work Environment 151
Chapter 12: Ease of Access, Speech, and Language 207
Chapter 13: Transferring Files from Another Computer 247
Chapter 14: Customizing Startup Options 257
Chapter 15: Using Vista Programs and Accessories 271
Chapter 16: Troubleshooting Customization Problems 307

Part IV: Power Using the Internet 315
Chapter 17: Browsing and Blogging with Internet Explorer 317
Chapter 18: Doing E-Mail with Windows Mail 363
Chapter 19: Beyond E-Mail and the Web 439
Chapter 20: Managing Names and Addresses 461
Chapter 21: Troubleshooting Internet Problems 473

Part V: Pictures, Music, and Movies 481
Chapter 22: Playing with Pictures 483
Chapter 23: Making Music with Media Player 11 525
Chapter 24: DVD, Video, and More 573
Chapter 25: Making Movies with Movie Maker 591
Chapter 26: Fun with Media Center 629
Chapter 27: Troubleshooting Multimedia 647

Part VI: Managing Files and Folders 653
Chapter 28: Understanding Drives, Folders, and Files 655
Chapter 29: Managing Files and Folders.....707
Chapter 30: Searching for Files and Messages.....733
Chapter 31: Metadata and Power Searches 751
Chapter 32: Using CDs and DVDs 775
Chapter 33: Protecting Your Files 803
Chapter 34: Troubleshooting Files and Folders.....821

Part VII: Printing, Faxing, and Scanning 827
Chapter 35: Installing and Managing Printers.....829
Chapter 36: Printing Documents and Screenshots 837
Chapter 37: Managing Print Jobs 845
Chapter 38: Faxing and Scanning.....853
Chapter 39: Troubleshooting Printing and Faxing 869

Part VIII: Installing and Removing Programs. 875
Chapter 40: Downloading Programs.....877
Chapter 41: Installing and Upgrading Programs 885
Chapter 42: Getting Older Programs to Run.....895
Chapter 43: Repairing and Removing Programs 905
Chapter 44: Setting Default Programs.....911
Chapter 45: Managing Programs and Processes 923
Chapter 46: Troubleshooting Software Problems 935

Part IX: Hardware and Performance Tuning 947
Chapter 47: Installing and Removing Hardware 949
Chapter 48: Using Wireless Bluetooth Devices 971
Chapter 49: Syncing Devices 983
Chapter 50: Performance Tuning Your System 995
Chapter 51: Troubleshooting Hardware and Performance.....1023

Part X: Networking and Sharing 1031
Chapter 52: Creating a Home Network.....1033
Chapter 53: Sharing Resources on a Network.....1053
Chapter 54: Using Shared Resources 1067
Chapter 55: Using Windows Meeting Space 1081
Chapter 56: Troubleshooting Networks 1089

Part XI: Appendixes. 1095
Appendix A: Upgrading to Windows Vista 1097
Appendix B: Installing Vista on a New System 1105
Appendix C: Universal Shortcut Keys.....1109

Introduction. xliii

Part I: Getting Started, Getting Secure 1

Chapter 1: What's New in Windows Vista 3

A New Look and Feel 3
Flip 3D 4
Why don't I have Aero Glass? 5
What if I don't like Aero Glass? 6
Windows Sidebar 6
Quicker, Easier Navigation 7
Sizing icons 8
Sorting, grouping, and stacking 8
Previous versions and undelete 8
Search and Virtual Folders 10
Search for tags (keywords) 11
Saved searches (virtual folders) 12
Security 13
User Account Control 13
Parental controls 14
Windows Photo Gallery 14
Windows Mail and Internet Explorer 15
Built-in CD and DVD Burning 16
Speech Recognition 16
Better, Easier Backups 16
Windows ReadyBoost 16
Wrap Up 17

Chapter 2: Getting Around 19

Terminology for Things You Do 19
Mouse terminology 20
Point 20
Click 20
Double-click 21
Right-click 21
Drag 21
Keyboard terminology 21
Tab, Enter, and Spacebar 21
If in doubt, Escape key out 21

The Help key (F1) 21
The ⊞ Key 21
Shift, Ctrl, and Alt 22
Shortcut keys 22
Logging In 22
What's on the Desktop 23
Using the Start Menu 25
The right side of the Start menu 27
The Start menu Search box 27
Shut Down and Lock buttons 28
Using the Windows Desktop 30
About desktop icons 30
Arranging desktop icons 31
Running Programs 32
The active window 34
Switching among open programs 34
Switching with taskbar buttons 34
Switching with the keyboard 35
Switching with Flip 3D 35
Switching among multiple instances 36
Arranging program windows 37
Sizing program windows 38
Maximize a program window 39
Minimize a program window 39
Size at will 40
Moving a program window 41
Moving and sizing from the keyboard 42
Closing a Program 42
Using the Quick Launch Toolbar 43
Using the Notification Area 44
Showing/hiding notification icons 45
Responding to notification messages 46
Using scroll bars 47
Using Back and Forward buttons 48
The Welcome Center 48
Quick Help for Getting Started 49
Logging Off, Shutting Down 50
Stuff You Can Do with a Computer 51
Wrap Up 51

Chapter 3: Sharing and Securing with User Accounts 53

Logging In and Out of User Accounts 53
Where am I now? 54
Logging out of an account 54
Creating Strong Passwords 56
Remembering passwords 56
Devising a password hint 57
Types of User Accounts 57
The built-in Administrator account 57
Administrative user accounts 58

Standard accounts 58
Guest account 58
Creating and Managing User Accounts 58
Creating a user account 60
Changing user accounts 61
Changing a user account type 61
Password-protecting an account 62
Changing the account picture 63
Changing the account name 64
Enabling or disabling the Guest account 65
Navigating through user account pages 65
Creating a Password Reset Disk 65
Using the password reset disk 66
Cracking into standard user accounts 67
Deleting User Accounts 67
Using User Accounts 68
Understanding User Account Control (UAC) 69
Privilege escalation in administrative accounts 70
Turning UAC on and off 71
Running Programs as Administrator 73
Add the Built-in Administrator Account to the Login Screen 74
Stop Entering Password on Lockout 74
Advanced Security Tools 74
About Windows CardSpace 75
Wrap Up 76

Chapter 4: Parental Controls and Family Safety 77

Before You Get Started 77
Getting to the Parental Controls Page 77
Defining Web restrictions 78
Setting time limits 81
Controlling game play 82
Blocking and allowing programs 83
Get Web sites working 83
Viewing User Activity Reports 84
Reviewing system activity 84
Family Safety Resources for Parents 85
Wrap Up 85

Chapter 5: Help, Support, and Troubleshooting 87

Introducing Help and Support 87
Navigating Help 89
Using the Search box 90
Online Help and Offline Help 90
Help from People 91
Remote Assistance 92
Windows Communities 92
Microsoft Customer Support 94
Troubleshooting 94
Wrap Up 94

Chapter 6: Troubleshooting Startup Problems 97

The Computer Won't Start 97
Non System Disk or Disk Error 97
Computer starts but mouse and keyboard don't work 98
Computer keeps trying to start, but never gets there 98
Screen turns blue during startup, then stops 98
Computer Takes Too Long to Start 98
Restore system files to an earlier time 99
Repair Install Windows Vista 99
The instruction manual that came with your computer 99
Resources in this book 99
Resources in Windows Help 100
Online resources 100
Programs Won't Start 100

Part II: Batten Down the Security Hatches 101

Chapter 7: Blocking Hackers with Windows Firewall 103

How Firewalls Work 103
What a firewall doesn't protect against 104
Introducing Security Center 105
Turning Windows Firewall on or off 105
Making Exceptions to Firewall Protection 107
Manually configuring firewall exceptions 107
Adding a program exception 108
Choosing a scope 110
Disabling, changing, and deleting exceptions 111
Advanced firewall settings 111
Advanced Firewall Configuration 112
Open the Windows Firewall with Advanced Security icon 112
Changing Firewall Profile Properties 113
Firewall alerts, unicast response, local administrator control 113
Security Logging 114
Customizing IPsec settings 115
Inbound and Outbound Rules 116
Wrap Up 116

Chapter 8: Conquering Malicious Software 119

Types of Malware 119
Viruses and worms 119
Spyware and adware 120
Trojan horses and rootkits 120
Conquering Spyware with Windows Defender 121
Opening Windows Defender 122
Removing spyware from your computer 123
Doing a quick scan 124
Doing a custom scan 124
Automatic scanning 124

Preventing spyware 125
Advanced and Administrator configuration options 127
Using Software Explorer to control startup programs 128
Disallowing allowed programs 129
Joining the SpyNet community 130
Windows Defender Web site 130
Using Antivirus Software 130
Virus protection 131
Virus protection and removal 133
Antivirus and Security Center 133
User Account Control and Malware 134
The Malicious Software Removal Tool 134
Wrap Up 134

Chapter 9: Automatic Updates as Security 137

Understanding Automatic Updates 137
Updates versus upgrades 138
Why updates are important 138
Enabling Automatic Updates 138
Managing Updates 139
Managing optional updates 139
Change how updates work 141
Reviewing and removing updates 142
Thwarting Exploits with DEP 142
Wrap Up 144

Chapter 10: Troubleshooting Security 145

Troubleshooting Firewall Problems 145
Some Internet programs do not work when installed on Windows Vista 145
Error message "Windows Firewall has blocked this program from accepting connections" 145
Can't adjust Windows Firewall for AOL dial-up connection 146
Phone dialer does not work after installing Windows Vista 146
Troubleshooting Antivirus Programs 147
Troubleshooting Automatic Updates 147
Troubleshooting Windows Defender 147
Troubleshooting ActiveX Control Downloads 147

Part III: Personalizing Windows Vista 149

Chapter 11: Personalizing Your Work Environment 151

Showing/Hiding the Welcome Center 151
Using the Personalization Page 153
Choosing a screen resolution 153
Understanding aspect ratio 154
Filling the screen 155
Adjusting color depth 156
Using multiple monitors 156
Reducing monitor flicker 158

Choosing a theme 159
Personalizing your color scheme 161
Making text sharper 164
Coloring individual screen elements 164
Personalizing your desktop background 164
Personalizing desktop icons 166
Creating your own desktop icons 166
Sizing, arranging, showing, and hiding desktop icons 167
Customizing icons 169
Adjust the font size (DPI) 170
Personalizing your screen saver 171
Personalizing sound effects 173
Personalizing your mouse 174
Mice for lefties 175
Adjusting the double-click speed 177
Using ClickLock 177
Speed up or slow down the mouse pointer 177
Making the mouse pointer more visible 178
Changing mouse wheel behavior 179
Personalizing the Keyboard 179
Personalizing the Start Menu 180
Opening Taskbar and Start Menu Properties 181
Personalize the right side of the Start menu 183
Start menu folders 183
Start menu places 184
Start menu searching 185
Start menu behavior 185
Customizing the left side of the Start menu 186
Reorganizing the All Programs menu 187
Creating Custom Shortcut Keys 188
Customizing the Taskbar 190
Locking and unlocking the taskbar 192
Moving and sizing the taskbar 193
Showing toolbars on the taskbar 193
Sizing and positioning taskbar toolbars 194
Customizing the Quick Launch toolbar 195
Customizing the Links toolbar 196
Customizing the Notification Area 197
Getting rid of Notification area icons 199
Tweaking the clock 200
Using Windows Sidebar 201
Showing/hiding the sidebar 202
Adding and removing gadgets 204
Using and manipulating gadgets 205
Using Windows SideShow 205
Wrap Up 206

Chapter 12: Ease of Access, Speech, and Language 207

Introducing Ease of Access Center 207
Help for visual impairments 210
Using Microsoft Screen Magnifier 210
Using Microsoft Narrator 212
Using High Contrast 213
Using the computer without a display 213
Optimize visual display 214
Help for motor impairments 215
Using the On-Screen Keyboard 216
Using Mouse Keys 218
Using Sticky Keys 220
Using Toggle Keys 222
Using Filter Keys 222
Help for hearing impairments 223
Make it easier to focus on tasks 224
Ease of Access administrative settings 225
Accessibility keyboard shortcuts 225
Using Speech Recognition 226
Getting started with speech recognition 227
Control speech recognition by voice 229
Commanding Windows by voice 229
Work anywhere by voice 231
Dictating text 231
Making dictation better 234
Correct that 234
Improve voice recognition 234
Add words to the speech dictionary 235
Advanced speech recognition configuration 235
More speech recognition help 237
Regional and Language Settings 237
Change how numbers, dates, and times look 238
Let them know your correct location 238
Working with multiple languages 239
Using input languages 239
Switching languages and keyboards 241
Removing input languages 243
Installing user interface languages 244
Wrap Up 245

Chapter 13: Transferring Files from Another Computer 247

What You Can Transfer 247
What you can't transfer 248
Getting programs onto the new computer 248
What not to install 248
Choosing a Transfer Method 249
Using a USB Easy Transfer cable 249
Using a home network 250

Using external disks 250
Using a jump drive or external hard disk 250
Using CDs or DVDs 250
Doing the Transfer 251
When the Transfer Is Finished 253
Transferring without Windows Easy Transfer 254
Manually transfer Internet Explorer Favorites 254
Manually transfer contacts 255
Manually transfer Outlook Express e-mail messages 255
Transferring fonts 256
Wrap Up 256

Chapter 14: Customizing Startup Options 257

First Things First 257
Starting Application Programs Automatically 258
Stopping autostart applications 259
Controlling Autostart Programs from Windows Defender 260
When Defender alerts you to autostart programs 261
Reviewing and disabling autostart programs 262
Autostarting from the Services Snap-In 263
Bypassing the Login Page 266
Troubleshooting Startup 266
Getting rid of disabled devices 267
When Windows won't start at all 267
Wrap Up 269

Chapter 15: Using Vista Programs and Accessories. 271

Important Stuff About Programs 271
Using Windows Calculator 273
Typing with WordPad 274
Typing and navigating text 275
Basic text editing 276
Selecting text 277
Formatting text 278
Deleting and replacing chunks of text 280
Using copy-and-paste and cut-and-paste 280
Moving text within a document 281
Copy-and-paste a picture 282
Saving a WordPad document 282
Opening a WordPad document 284
Typing Special Characters with Character Map 285
Installing Fonts 286
Using Notepad 288
Zipping and Unzipping Files 289
Zipping files 289
Unzipping files 290
Annotating Screenshots with Snipping Tool 292
Saving a snip 293
Copy-and-paste a snip 293
E-mail a snip 294

Change Snipping Tool options 294
Screenshots the old-fashioned way 294
Using Paint 295
Using Sound Recorder 296
Using Windows Calendar 298
Navigating the Calendar 300
Entering a task or appointment 300
Adding a received invitation to your Calendar 301
Creating multiple calendars 302
Sharing calendars 302
Viewing shared calendars 303
Subscribing to online .iCalendars 304
Searching the Calendar 304
Managing and printing calendars 305
Wrap Up 305

Chapter 16: Troubleshooting Customization Problems 307

Desktop Problems 307
My screen is too large/small; my screen colors look awful 307
When I right-click the Vista desktop, I don't get a Personalize option 308
Parts of my screen are cut off or blank 308
My desktop picture doesn't fit right 308
Everything is huge; can't see all of dialog boxes 309
Icon names are too big or too small 309
I don't have any desktop icons (or don't like their size) 310
I can't put my desktop icons where I want them 310
My screen saver never kicks in 310
Missing Aero Glass, Flip 3D, or Switch between Windows button 310
Start Menu Problems 311
My Start menu shows one column, not two 311
Some Start items can't be displayed 311
The right side of my Start menu is missing some options 312
Taskbar Problems 312
My taskbar is missing 312
My taskbar is too tall (or messed up) 312
I don't have a Quick Launch toolbar 313
I don't have a Show Desktop button on my Quick Launch toolbar 313
Updating your Display Driver 313

Part IV: Power Using the Internet 315

Chapter 17: Browsing and Blogging with Internet Explorer 317

How the Web Works 317
Using Internet Explorer 320
Browsing to a Web site 320
Using AutoComplete 321
Using hyperlinks 321
Using Back, Forward, and History buttons 322
Magnifying a page 323

Panes and toolbars 323
Full screen viewing 324
Change your default home page 324
Using Tabs 324
Using Quick Tabs 326
Creating multiple home page tabs 326
Rearranging and removing home page tabs 327
Personalizing tabbed browsing 327
Shortcut keys for tabs 329
RSS Feeds: Blogging with Internet Explorer 330
Optional settings for RSS feeds 331
Using the RSS Feeds gadget 332
Managing Favorite Sites 332
Adding tab groups to Favorites 333
Organizing Favorites 334
Importing and exporting Favorites 335
Blocking Pop-Ups 336
Using the Information bar 337
When pop-ups still get through 338
Using the Phishing Filter 338
How the Phishing Filter works 339
Getting the most from the Phishing Filter 340
What if I've already been tricked? 340
How do I protect myself in the future? 341
Deleting the Browser History 341
Clearing out AutoComplete entries 341
Preventing AutoComplete 342
Understanding cookies 343
Deleting cookies 343
Adjusting cookie privacy settings 343
Looking at cookies and privacy policies 344
Understanding temporary Internet files 344
Clearing out temporary Internet files 346
Temporary Internet files settings 346
A note on certificates 347
Using Internet Security Zones 350
Printing Web Pages 352
Using Print Preview 353
Important printing tip 354
Saving Web Pages 354
Copying content from Web pages 357
Downloading pictures and videos 357
Making Internet Explorer Your Default Browser 357
Searching the Web 358
Choosing search providers 358
Choosing a default provider 359
Searching from the Search box 359
Searching from the Address bar 359
Searching the Current Page 360

Getting More with Add-ons 360
Shopping for add-ons 360
Managing add-ons 360
Internet Explorer Help and Troubleshooting 362
Wrap Up 362

Chapter 18: Doing E-Mail with Windows Mail 363

How E-Mail Works....363
Introducing Windows Mail....364
What you need to know to get started 366
Setting up your e-mail account 368
Writing E-Mail with Windows Mail 370
Typing and editing tips....371
Check your spelling 372
Add a background color, picture, or sound 372
Setting message priority 372
Requesting a read receipt 373
Getting your E-Mail 373
Replying to a message 373
Forwarding a message 374
Other stuff you can do with a message....374
Magnifying e-mail text....376
Sorting message headers 376
Sizing and positioning columns....376
Sizing the Preview pane 376
Using E-mail Attachments 377
Attaching a file to a message....377
E-mailing documents from folders....379
E-mailing pictures from Windows Photo Gallery 380
Opening received attachments 380
Saving attachments as files 382
Saving embedded pictures as files 384
Converting e-mail messages to files 384
Composing Fancy Messages with HTML 384
HTML, default font, and stationery 385
Using fonts, sizes, boldface, underline, italics, colors 386
Typing a list 387
Indenting and aligning text 387
Inserting pictures 388
Inserting a line 389
Adding hyperlinks to e-mail messages 390
Type a link....390
Copy and paste a link 390
Custom links 390
Automatic e-mail signing 391
Dealing with Spam (Junk E-mail)....393
Identifying safe senders 393
Blocking specific senders 394
Blocking by country and language 395
Blocking phishing scams 395

Managing junk mail and good mail 396
Phishing scam e-mails 396
Managing Mail Folders and Messages 398
Choosing columns for the contents pane 398
Flagging messages that need more attention 400
Grouping conversation messages 400
Filtering messages 400
Create your own mail folders 403
Moving, renaming, and deleting mail folders 404
Showing/hiding mail folders 405
Managing messages 405
Selecting multiple e-mail messages 405
Moving messages to a folder 406
Deleting messages 406
Permanently deleting messages 407
Auto-organizing messages through rules 407
Auto-responding to messages 409
Searching for Messages 411
Searching from the Start menu 412
Searching from the Search window 413
Personalizing Windows Mail 413
General options 413
Read options 415
Mark message read after displaying for x seconds 415
Automatically expand grouped messages 415
Automatically download message when viewing in the Preview Pane 416
Read all messages in plain text 416
Show ToolTips in the message list for clipped items 416
Highlight watched messages 416
News settings 416
Fonts settings 416
Receipt options 416
Send options 418
Compose options 419
Compose font 419
Stationery 420
Business cards 420
Signature options 421
Spelling options 421
E-mail security options 421
Virus Protection 421
Downloaded images 422
Secure Mail 423
Connection options 423
Advanced options 423
Contact Attachment Conversion 424
IMAP 425
Message Threads 425
Reply/Forward 425
Restore Defaults 425
Maintenance 425

Managing E-mail Accounts 427
Managing Messages with Multiple Computers 429
Customizing the Toolbar 430
Securing E-mail with Digital IDs 431
Getting a digital ID 432
Using your digital ID 433
Importing Messages from Other Programs 435
Exporting Messages to Other Programs 435
Where and How Messages Are Stored 436
More on Windows Mail 437
Wrap Up 437

Chapter 19: Beyond E-Mail and the Web 439

About Newsgroups 439
Creating a newsgroup account 440
Downloading newsgroup names 442
Subscribing to newsgroups 442
Viewing newsgroup messages 443
Posting a newsgroup message 444
Replying to newsgroup messages 446
Getting the latest messages 446
Searching newsgroup messages 448
Quick Searches from the Search box 448
Searching from the Start menu 449
Saving useful messages 449
Hiding irrelevant messages 449
Creating newsgroup message rules 450
Unscrambling messages 451
Unsubscribing from a group 452
Personalizing newsgroups 452
Using FTP 452
Anonymous FTP versus FTP accounts 452
Using Explorer as an FTP client 453
Using Remote Assistance 454
Setting up Remote Assistance 454
Requesting remote assistance 455
Using Remote Desktop 457
Allowing remote connections on a home network 458
Connecting from a remote home network PC 459
Wrap Up 460

Chapter 20: Managing Names and Addresses. 461

Opening Contacts 461
Changing how you view Contacts 462
Making shortcuts to Contacts 462
Creating a contact 463
Opening and editing contacts 464
Create a “me” contact 465
Creating Contact Groups 465
Printing Contacts 467

Importing and Exporting Contacts 468
Importing people to your Contacts folder 468
Exporting contacts to vCards 469
Exporting to a CSV file 470
Searching for Contacts 470
Sharing Contacts on a Network 470
Wrap Up 471

Chapter 21: Troubleshooting Internet Problems 473

Troubleshooting Internet Explorer 473
Clicking a hyperlink has no effect 473
Can't download program or ActiveX control 473
Security alert about leaving a secure Internet connection 474
Error message "This page cannot be displayed" 475
Can't change the default home page 475
Saved pictures stored as bitmaps (.bmp files) 475
Content Advisor dialog box or message opens 476
All other Internet Explorer problems/features 476
Troubleshooting Windows Mail 476
Error message "The host name could not be found . . ." 476
Some of my mail is not showing up in my Inbox 478
Pictures are missing from e-mail messages 478
Can't open or save e-mail attachment 478
Message "Your current security settings prohibit running ActiveX controls . . ." 479
All other Windows Mail problems/features 479
More Internet Troubleshooting 479

Part V: Pictures, Music, and Movies 481

Chapter 22: Playing with Pictures 483

Getting Pictures into Your Computer 483
Getting pictures from a digital camera 483
Getting pictures from a memory card 485
Getting pictures from a CD or DVD 486
Getting pictures from a scanner 487
Using pictures you get by e-mail 488
Copying pictures from Web sites 489
Copy and paste pictures 490
Taking screenshots 490
Using the Snipping Tool 490
Using the Print Screen key 491
Using Your Pictures Folder 492
Pictures folder quick tips 495
Why some pictures show icons 497
Videos in your Pictures folder 498
Renaming pictures and videos 498
Using Windows Photo Gallery 499
Choosing what to view and how 500
Photo Gallery quick tips 501
Selecting thumbnails in the gallery 501

Dating, rating, tagging, and captioning 502
Filtering pictures 503
Changing tags 504
Use a picture as your desktop background 505
Adding pictures to Photo Gallery 505
Using the Photo Gallery Viewer 505
Zooming and panning 506
Back to the Gallery 506
Making a duplicate photo 506
Use your Photo Gallery as a screen saver 507
Fixing photos 507
Auto Adjust 508
Adjust Exposure 508
Adjust Color 508
Cropping 508
Fixing red eye 509
Saving Fix pane changes 510
Choosing Photo Gallery options 510
Making movies from Photo Gallery 512
Printing Pictures 513
Printing from Windows Photo Gallery 513
Printing pictures from a folder 515
Using the Slide Show Gadget 516
Pixels and Megapixels 517
File extension, size, and dimensions 519
TIFF pictures 521

Changing a picture type or size 522
Pictures, Tags, and Virtual Folders 523
Wrap Up 524

Chapter 23: Making Music with Media Player 11 525

Controlling Sound Volume 525
Starting Windows Media Player 527
Media Player program window 527
Media Player menus 528
Play controls 529
Closing/minimizing Windows Media Player 529
Listening to a CD 530
Now Playing, Visualizations, and Enhancements 531
Using the playlist 532
Using Enhancements 533
Stopping a CD 534
Play CDs automatically with Media Player 534
Ripping (Copying) Music CDs 535
Options for ripping CDs 535
Choosing where to put songs 536
Choosing how to name files 536

Choosing a file format and quality 537
Copy protecting music....538
Rip CD when inserted 539
Eject CD when ripping is completed 539
Still more rip options....539
Copying songs 539
Getting Music Online 541
Using the Media Player Library....541
Navigating the library 541
Choosing columns for Media Library 544
Sizing columns 544
Moving columns 545
Sorting songs....545
Getting missing media information automatically 545
Choosing what files to include in your library 546
Sharing your media library....548
Automatically renaming songs 548
Selecting in Media Library 549
Changing a song title 550
Changing genre, artist, and such 550
Changing incorrect media information....551
Rating songs....551
Using the Advanced Tag Editor 552
Adding lyrics 553
Finding missing album art 553
Making Custom Playlists 554
Managing songs in a playlist....555
Saving a playlist 556
Viewing, playing, and changing playlists 556
Using and creating Auto Playlists 557
Creating Your Own Music CDs....559
Types of music CDs 559
Choosing music disk options 559
Choosing songs to put on the CD 562
Creating the disk 563
Saving a Burn List 563
Copying Music to Portable Devices 564
Manual syncing 564
Managing songs on a device....565
Auto-syncing devices 566
Choose between manual and auto sync 567
Setting player options 567
Fun with Skins....567
Extending Media Player with Plug-ins 568
Converting File Types....568
Combining Multiple Tracks into One 569
Music, Metadata, and Searches....570
Wrap Up 571

Chapter 24: DVD, Video, and More 573

Watching DVD, VCD, and Such 573
First things first 573
Setting defaults for DVDs 574
Playing a DVD or VCD 575
Choosing the screen size 576
Preventing screen savers during playback 577
Setting parental controls and language defaults 577
Playing Video Files 577
Using your Videos folder 578
Recorded TV 579
Making Media Player the default video player 579
Adding videos to your media library 579
Playing videos from your library 580
Internet Video 581
Downloading video files 581
Playing downloaded video files 582
Ripping DVDs 582
Converting Video Files 583
Managing Pictures with Media Player 583
More on Playlists 584

Saving playlists in M3U format 588
Media Player Help and Troubleshooting 589
Wrap Up 589

Chapter 25: Making Movies with Movie Maker 591

Getting Started with Movie Maker 591
Choosing program options 593
Things you can use in movies 594
Using collection folders 595
Importing Content to Movie Maker 595
Import pictures and video from Photo Gallery 595
Import pictures, video, and music from folders 597
Import video from tape and DVD 597
Working with Clips 597
Thumbnails and Details views 598
Watching video clips 598
Break a long video into smaller clips 599
Organizing clips 600
Splitting clips 600
Combining clips 600
Making an AutoMovie 601

Creating Your Movie....601
Adding video clips to the Storyboard/Timeline....602
Previewing your movie....603
Editing the Storyboard....603
Create media information for your movie....603
Saving your work....603
Resuming work on a project....604
Using Photos in Movies....604
Making photos from video....605
Adding photos to the Storyboard....605
Adding Titles and Credits....606
Adding Transition Effects....607
Adding Video Effects....608
Brighten/darken clips....609
Slow motion/fast motion....609
Using the Timeline....610
Adding Audio to Movies....611
Adding sound effects....612
Adding narration to a movie....612
Adding background music....614
Fading music in and out....614
Adjusting relative volume....615
More Timeline Refinements....615
Trimming and extending clips....616
Overlapping clips....616
Setting trim points....617
Replacing a video's audio content....617
Changing tiles and credits to overlays....618
Publishing Your Movie....619
Things to consider....619
File type....619
Bit rate....619
Display size....620
Aspect ratio....620
Frames per second....620
Publishing to a file....620
Icons for movies and projects....621
Publishing to DVD....622
Publishing to CD or tape....622
Publishing movies for e-mail....622
Import from Videotape....623
Movie Maker Help and Troubleshooting....627
Wrap Up....628

Chapter 26: Fun with Media Center 629

Starting Media Center....629
Working Media Center with a mouse....631
Working Media Center with a keyboard....631
Using a Media Center remote control....631

Moving and Sizing Media Center 631
Media Center Playback Controls....632
Things You Can Do without TV 633
Playing music in Media Center....633
Viewing pictures and videos in Media Center....634
Online Media....635
Playing movies in Media Center....636
Watching and Recording TV....636
Recording TV....637
Watching recorded TV....638
Recorded TV files....639
Personalizing Media Center 640
General Settings....640
Startup and Window Behavior....640
Visual and Sound Effects 641
Program Library Options....641
Windows Media Center Setup 641
Parental Controls....641
Automatic Download options 642
Optimization 642
TV settings....642
Pictures Settings....643
Music Settings 644
DVD Settings 644
Extender Settings....644
Library Setup 645
Burning CDs and DVDs from Media Center....645
Syncing, Shut Down, and Extenders 646
Wrap Up 646

Chapter 27: Troubleshooting Multimedia 647

Troubleshooting Pictures and Photos 647
No Copy option when right-clicking a picture in a Web page 647
Cannot copy thumbnail from my Pictures folder to open document 647
Troubleshooting Windows Media Player....648
When I first start Media Player I get prompted to install URGE 648
Message "Invalid Function" when trying to burn a CD....648
Some other program opens when you open an icon or insert a CD 649
I'm unable to locate the menus within Media Player....649
Cannot see captions when playing a CD or DVD 650
Media Player can't find my MP3 player 650
Song titles don't appear after inserting a CD....650
Error message appears with 0xC00 or other number 650
All other Windows Media Player issues 650
Troubleshooting Windows Movie Maker 650
Message "Your system is currently set to 800x600 . . ." 651
No audio when capturing content 651
More Troubleshooting Resources 651

Part VI: Managing Files and Folders 653

Chapter 28: Understanding Drives, Folders, and Files 655

Understanding Disks and Drives 655
Your computer's hard disk 655
Removable media 656
Floppies and Zip disks 656
CDs and DVDs 657
Portable devices 658
Flash cards and memory sticks 658
Jump drives 659
Viewing your computer's drives 660
Sizes and capacities 661
How much room is there? 662
Viewing disk contents 663
Formatting disks 664
About Folders 664
Viewing the contents of a folder 665
Folders in folders (subfolders) 665
Parent folders 666
About Files 666
Opening and closing files 667
Showing/hiding filename extensions 667
Choosing a program to open a file 668
Changing the default program 668
Windows cannot open this file 669
File paths 670
Using Windows Explorer 671
Opening Windows Explorer 672
Windows Explorer components 672
Show or hide optional panes 674
Navigating with the Address bar 674
Navigating with Navigation pane 676
Adding places to Favorite Links 677
Managing favorite links 677
Navigating from the contents pane 677
Navigating to a disk drive 678
Choosing an icon view 679
Using columns in the Details view 679
Sorting icons 680
Grouping and stacking icons 681
Stacking icons 682
Filtering icons 682
Using the Preview pane 683
Using the Details pane 684
To Click or Double-Click? 685
Personalizing folder behavior 686
Options on the View tab 687
Always show icons, never thumbnails 688
Always show menus 688

Display file icon on thumbnails 688
Display file size information in folder tips 688
Display simple folder view in Navigation pane 689
Display the full path in the title bar (Classic folders only) 689
Show hidden files and folders 689
Hide extensions for known file types 689
Hide protected operating system files (recommended) 690
Launch folder windows in a separate process 690
Managing pairs of Web pages and folders 690
Remember each folder's view settings 691
Restore previous folder windows at logon 691
Show drive letters 691
Show encrypted or compressed NTFS files in color 692
Show pop-up description for folder and desktop items 692
Show preview handlers in preview pane 692
Use check boxes to select items 692
Use Sharing Wizard (recommended) 693
Restore defaults 693
Saving Things in Folders 693
What folder should I use? 694
How to save in folders 694
Saving in Vista style dialog boxes 694
Saving in Classic style dialog boxes 696
Naming the file 698
Choosing a Save As Type 698
Click Save 698
Opening the saved file 698
Creating Your Own Folders 699
Creating folders on-the-fly while saving 700
Personalizing your folder 701
Specify a folder type 701
Folder pictures 702
Changing a folder's icon 702
Read-Only, Hidden, and Advanced attributes 703
Compress contents to conserve disk space 704
Encrypt contents to secure data 705
Wrap Up 706

Chapter 29: Managing Files and Folders 707

How to Select Icons 707
Select one icon 708
Selecting all icons 709
Select a range of icons 709
Selecting and unselecting one at a time 710
Selecting with the keyboard 711
Select groups or stacks 711
Select by filtering 713
Selecting by lassoing 714
Select most icons in a folder 714
Selecting from multiple folders 714
Unselecting all icons 715

Moving and Copying Files 715
Moving files to a subfolder 715
Copying to/from external disks 716
Moving and copying by dragging 717
Move or copy using two open folders 718
Using cut-and-paste to move or copy files 719
Making a copy in the same folder 719
Undoing a move or copy 720
This location already contains. 720
Renaming Files 722
Undoing a rename 722
Renaming multiple files 723
Deleting Files 723
Using the Recycle Bin 725
Recovering accidentally deleted files 726
Permanently deleting Recycle Bin files 726
Creating and Deleting Shortcuts 726
Managing Files with DOS Commands 729
Getting to a command prompt 729
Using the command prompt 730
Copy and paste in the Command Prompt window 730
Navigating from the command prompt 731
Printing a list of filenames 731
Wrap Up 732

Chapter 30: Searching for Files and Messages 733

Basics of Searching 733
You're not asking it questions 734
Be specific 734
Spelling counts 735
Where you start the search matters 735
How Searching Works 735
Quickie Start Menu Searches 736
Customizing Start menu searches 738
Extending a Start menu search 739
Searching Folders and Views 739
Using Advanced Search Tools 742
Searching your computer 743
Searching your own network 743
Specifying search criteria 745
Search by Date 745
Search by Size 745
Search by Filename or Subject 745
Search by Tags, Authors, Title, and Others 746
Performing the Search 746
Saving a search 747
Using saved searches 748
Wrap Up 749

Chapter 31: Metadata and Power Searches 751

Working with File Properties 751
Viewing properties sheets....752
Viewing properties in columns....753
Editing properties 754
Setting Properties When You Save 756
Personalizing Searches 757
Managing the Search Index 759
Add a folder to your search index 759
Advanced indexing options 760
Adding and removing indexed locations 761
Remove a location from the index 763
Choosing file types to index....763
More advanced options 764
Rebuilding the index 765
Restoring index defaults....765
Moving the index....765
Power Searches....766
Searching specific properties 767
Greater than and less than 767
AND, OR, and NOT searches....768
Date and number searches 769
Searching for phrases....771
Message searching 771
Natural language queries 772
Wrap Up 773

Chapter 32: Using CDs and DVDs. 775

Understanding CDs and DVDs....775
CD-ROM and DVD-ROM....775
CD-R, DVD-R, and DVD+R 776
CD-RW, DVD-RW, DVD+RW 776
Data CD versus audio CD 776
DVD– versus DVD+ 776
X marks the speed 777
Disk and drive compatibility 777
What Kind of Drive Do I Have? 777
Using Disks that Already Contain Data....779
What kind of disk is this? 780
Viewing a disk's contents 781
Copying files from a CD or DVD 781
Changing what happens when you insert a CD or DVD....782
Purchasing Blank CDs and DVDs 784
Copying Files to Blank CDs and DVDs....785
Burning a Mastered (ISO) disk....788
Closing a Live File System (UDF)....788
Adding more files later....789
Erasing Discs 789

Formatting CDs and DVDs....790
Burn as You Go in Explorer....792
Burning DVD Data Disks with Media Player....793
Using Windows DVD Maker....794
Opening Windows DVD Maker....794
Adding photos and videos....794
Choosing DVD options....795
Designing the menus....797
Customize menu text....797
Customize the menus....798
Customize the slide show....799
Make the DVD....799
Opening a saved DVD project....799
DVD Maker help and troubleshooting....801
Burning a Movie to DVD from Movie Maker....801
Wrap Up....801

Chapter 33: Protecting Your Files 803

Simple File Backups....803
Using the Backup and Restore Center....805
Starting the Backup and Restore Center....806
Backing up files and settings....807
Restoring files from a backup....808
Backing up the entire PC with CompletePC....809
Restoring from a CompletePC image to a new hard disk....810
Restore a CompletePC image to a partially damaged disk....810
Using System Protection....810
Turning System Protection on or off....811
Creating a restore point....812
Returning to a previous restore point....813
Undoing a System Restore....813
Using previous versions (shadow copies)....814
Returning to a previous version of a file or folder....814
Restoring deleted files from previous versions....815
Using BitLocker Drive Encryption....816
BitLocker hardware requirements....816
Encrypting the volume....817
When the computer won't start....818
Turning off BitLocker....818
More info on BitLocker....818
Wrap Up....818

Chapter 34: Troubleshooting Files and Folders 821

Troubleshooting Folders, Files, and Shortcuts....821
The Classic Menu bar is missing from Explorer....821
Where is the Up button to go to the parent folder?....821
What happened to the Folders list?....821
Slide Show is not available as an option in the Explorer Toolbar....822
I don't see the file extensions on files....822
When I try to select by dragging, the icons move, and nothing is selected....822
Error message "Application is using this file. You must close the file before proceeding."822

Error message "If you change a file name extension, the file may become unstable." 823
Error message "This location already contains a file with the same name" 823
"Problem with Shortcut" dialog box opens 823
Deleting a shortcut from my desktop deletes it from all users' desktops 823
Troubleshooting Documents 824
You cannot save in the folder specified 824
The file name is invalid 824
Please insert a disk into drive A: 824
My document isn't in the Open dialog box 824
Troubleshooting CDs and DVDs 824
Error message "Invalid function" when attempting to write files to a CD 824
I'm unable to read recorded CDs and DVDs on other computers 825
Troubleshooting Searches 825
Search didn't find my file 825
No Search option on the Start menu 825
More Troubleshooting Resources 826

Part VII: Printing, Faxing, and Scanning 827

Chapter 35: Installing and Managing Printers 829

Opening the Printers Folder 829
Setting the default printer 830
Testing a printer 830
Installing a New Printer 831
Installing printers with parallel and serial port connections 831
Installing printers with USB and infrared connections 832
Installing a network, wireless, or Bluetooth printer 832
Managing Print Drivers 833
Setting Default Printer Properties 833
Making pages print in the right order 834
Normal versus sideways printing 834
Saving time and money 835
Wrap Up 835

Chapter 36: Printing Documents and Screenshots 837

Printing a Document 837
Common printing options 839
Choosing a print quality and other options 840
Still more print options 841
Printing the Screen 842
Using Print Preview 843
Wrap Up 844

Chapter 37: Managing Print Jobs 845

How Printing Works 845
Managing Print Jobs 846
Managing a single document 847
Managing several documents 847
Managing all documents 847
Butting in line 848

Solving Common Printer Problems 849
Printing Offline 849
Creating XPS Documents 850
Wrap Up 852

Chapter 38: Faxing and Scanning 853

What You Need for Fax 853
Opening Windows Fax and Scan 854
Creating a fax account 854
Configuring faxmodem options 855
Defining Dialing Rules 857
Setting Up Your Cover Sheets 859
Sending Faxes 859
Faxing from Windows Fax and Scan 860
Sending faxes from programs 861
Receiving Faxes 862
Working with Faxes 863
Scanning Documents 864
Scanning with Windows Fax and Scan 864
Using scanned documents 866
Forwarding scanned documents automatically 866
Wrap Up 867

Chapter 39: Troubleshooting Printing and Faxing 869

Troubleshooting Printing 869
First aid for printing problems 869
Document appears to print, but nothing comes out of the printer 869
Problem with a network printer 870
Printer prints garbage 870
Advanced printing features are disabled 871
Printed colors don't match screen colors 872
Error message "Problem communicating with printer" 872
Updating your printer driver 872
Troubleshooting Faxing 873
First aid for faxing problems 873
Printing and Faxing Troubleshooting Resources 874

Part VIII: Installing and Removing Programs 875

Chapter 40: Downloading Programs 877

Before You Install a Program 877
To Run or to Save? 878
Read the instructions 878
Only administrators can install programs 878
Downloading Programs 878
Download and install a program 878
Download, but don't install 881
Windows Marketplace and Digital Locker 883
Wrap Up 884

Chapter 41: Installing and Upgrading Programs 885

Playing It Safe with Program Installations....885
Updates versus Upgrades....886
Installing and Upgrading from a Disk....886
Common Installation Prompts....887
The initial CD or DVD prompt....887
Prove you have the right....887
The product key or serial number....887
Compliance check....889
User information prompt....889
The End User License Agreement (EULA)....890
Type of installation....890
Installation summary....892
Setup completed....892
Using the installed program....892
Wrap Up....894

Chapter 42: Getting Older Programs to Run 895

What Makes a Program "Old"....895
Ancient history, today, and the future....896
Old programs to avoid altogether....897
Installing Incompatible Programs....897
Using the Program Compatibility Wizard....898
Quick-and-Dirty Program Compatibility....900
Doing DOS Commands in Windows Vista....901
Wrap Up....903

Chapter 43: Repairing and Removing Programs 905

Changing and Repairing Programs....905
Removing (Uninstalling) Programs....907
Uninstalling from the All Programs menu....908
Dealing with stuck programs....908
Returning to a Previous Version....908
Turning Windows Features On and Off....909
Wrap Up....910

Chapter 44: Setting Default Programs. 911

Setting Default Programs for Documents....911
Using the Default Programs Page....914
Set your Default Programs....915
Associate a file type or protocol with a program....916
Change AutoPlay settings....917
Set program access and computer defaults....919
Wrap Up....920

Chapter 45: Managing Programs and Processes 923

Getting to Know Task Manager....923
Choosing Task Manager Views....924

Not Responding? Task Manager to the Rescue 925
Closing frozen programs 925
Switching and starting tasks 926
Restarting a hung computer 927
Peeking at Resource Usage 927
Managing Processes with Task Manager 929
Hidden processes 930
Common processes 930
Choosing columns in processes 931
Monitoring Performance with Task Manager 932
Networking and Users Tabs 933
Wrap Up 934

Chapter 46: Troubleshooting Software Problems 935

Troubleshooting Installation 935
Troubleshooting Programs 935
Researching Application Errors 936
Editing the Registry 937
How registry data is organized 937
Standard root keys and subkeys 937
Key values 939
Numbering Systems 941
Backing up the registry 944
Making the registry change 944
Help with Troubleshooting Software 946

Part IX: Hardware and Performance Tuning 947

Chapter 47: Installing and Removing Hardware 949

Before You Install Anything 949
Using Hot-Pluggable Devices 950
Connecting USB devices 950
Connecting IEEE 1394 devices 952
PC Cards and Cardbus 953
Using memory cards 954
Memory cards and USB mass storage 954
Disconnecting hot-pluggable devices 954
Not-so-Hot-Pluggable Devices 956
Installing expansion cards 957
Installing more memory (RAM) 959
Installing a second hard drive 960
Primary and extended partitions 961
Partitioning and formatting the disk 961
Other hard drive operations 964
Converting a FAT disk to NTFS 964
Shrinking and extending partitions 965
Changing a volume label 966
Changing a drive letter 966

Removing Hardware 967
Updating Drivers 968
Dealing with Devices that Prevent Vista from Starting 969
Wrap Up 970

Chapter 48: Using Wireless Bluetooth Devices 971

The World of Bluetooth 971
Configuring Your Bluetooth Adapter 972
Adding Bluetooth-Enabled Devices 974
Installing a Bluetooth printer 974
Install a Bluetooth keyboard or mouse 974
Install a Bluetooth mobile phone 975
Connect a Bluetooth Blackberry 976
Connect a Bluetooth Windows Mobile device 977
Install a Bluetooth Palm PC 977
Joining a Bluetooth personal area network 977
Troubleshooting a Bluetooth Network Connection 979
Sharing an Internet connection 979
Transferring files between Bluetooth devices 981
Wrap Up 981

Chapter 49: Syncing Devices 983

Syncing with Network Files 983
Using Sync Center for offline files 984
Using Sync Center 984
Settings for offline files 988
Dealing with conflict 990
Synchronizing with Other Devices 993
Wrap Up 994

Chapter 50: Performance Tuning Your System 995

Getting to Know Your System 995
Knowing your CPU and RAM 996
Windows Experience Index 996
Getting more detailed information about your PC 998
Maximizing CPU and Memory Resources 999
Priorities, foreground, and background 999
Controlling CPU priorities 999
Reliability and Performance Monitor 1000
Monitoring tools 1001
Performance Monitor 1001
Reliability Monitor 1004
Data Collector Sets and Reports 1004
Managing virtual memory 1006
Using Windows ReadyBoost 1008
Trading pretty for performance 1010
Maintaining Your Hard Disk 1011
Determining disk capacity and free space 1011
Recovering wasted hard disk space 1012

Deleting System Restore files and unwanted features 1014
Scanning the disk for errors 1014
Defragmenting your hard drive 1015
The Power Settings....1016
Create a power plan 1018
System settings....1018
Wrap Up 1021

Chapter 51: Troubleshooting Hardware and Performance 1023

First Aid for Troubleshooting Hardware 1023
Dealing with Error Messages 1025
Performing a Clean Boot....1026
Using the System Recovery Options 1026
Trouble Setting a Passkey in the Add Bluetooth Device Wizard 1027
Troubleshooting Performance Problems 1028
More Hardware Troubleshooting Support....1029

Part X: Networking and Sharing 1031

Chapter 52: Creating a Home Network 1033

What Is a LAN? 1034
Planning a LAN 1034
Creating a Wired LAN 1034
Traditional Ethernet speeds 1034
The slowest component rules....1036
Creating a Wireless LAN....1036
Wireless Broadband Router 1036
Other useful wireless goodies....1038
Acquiring and Installing Network Hardware 1038
After the Hardware Setup 1039
Setting Up a Wired Network with an ICS Host....1040
Setting up the ICS host 1040
Setting up other computers 1042
Setting Up a Wired Network with a Router 1042
Setting Up a Wireless Network....1046
The 802.11 standard 1046
Access point, SSID, WEP, and WPA 1046
About SSIDs 1046
About WEP and WPA 1047
Installing the wireless networking hardware....1048
Connecting to available networks....1048
